

METALSKIN

Vágásvédelem - F.szint

null

Specifikációk

Legfőbb erősségek

Ellenállás, Tapadás, Comfort, Érintőképernyő, Lélegző

Mérőműszer

10

Nyersanyagok

Nagy sűrűségű polietilén, Poliamid, Spandex, Rozsdamentes acélszál

Bevonat

PU

Méretek

6-7-8-9-10-11-12

Csomagonként

10

Dobozonként

200

Releváns ágazatok

Autóipar, Fémfeldolgozás, Üveggyártás, Mérnöki tevékenység, Összeszerelési munkák, Gumi gyártása

CAT II

EN ISO 21420

EN 388

4 X 4 3 F

EN 407

METALSKIN is designed to offer high-performance protection, while guaranteeing comfort and precision in demanding working environments.

100% black high density polyethylene filament and metallic filament:

Combines abrasion and cut resistance with optimum flexibility, even for the most delicate tasks.

100% textured polyamide yarn in black:

Provides extra strength and protection against engineering industry risks, while remaining lightweight and mobile. Black CleanPu® coating:

The coating on the palm and fingertips provides excellent grip and increased resistance to wear, improving durability and safety when handling slippery or abrasive objects. Insertion of 100% carbon thread:

Located at the tip of the thumb and forefinger, this thread ensures compatibility with touch screens, making the glove ideal for tasks requiring the use of electronic devices while maintaining maximum protection. Coated reinforcement between thumb and forefinger :

To improve resistance and durability, an additional reinforcement has been placed between these two fingers, areas that are often used during manual work.

Elasticated wrist :

Ensures a perfect adjustment and secure holding, keeping the glove in place throughout the working day, while preventing the ingress of dust or debris.

METALSKIN is specially designed for environments requiring both a high level of protection against engineering industry risks and the ability to work with tools or touch screens.

Tanúsítványok

Gondoskodunk az emberekről és a környezetről

Érintőképernyős eszközökkel kompatibilis
